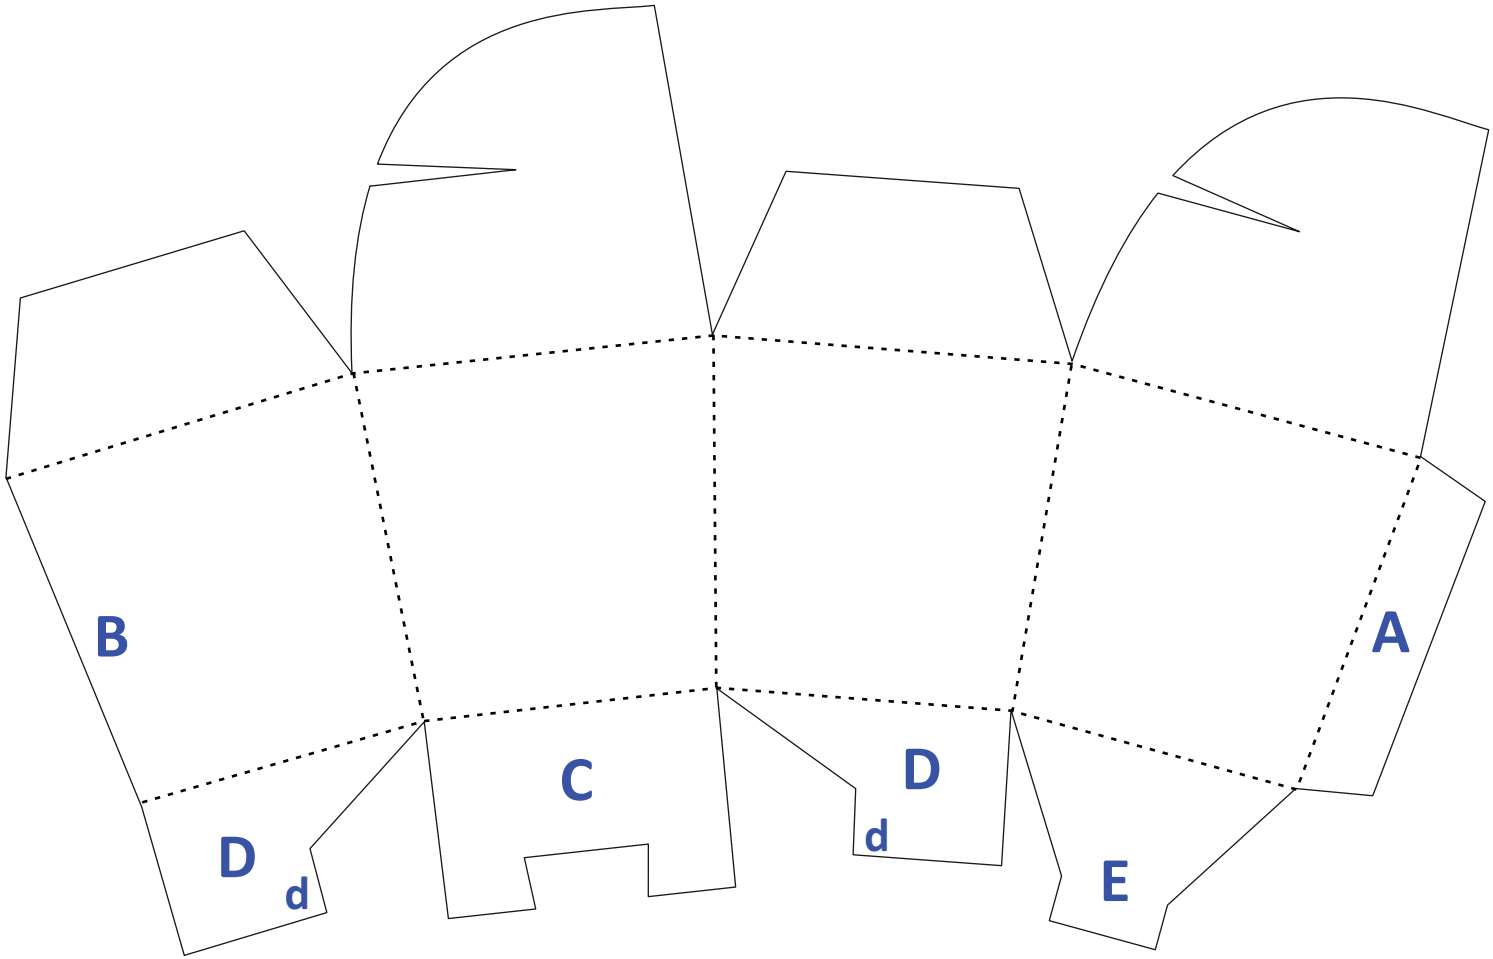
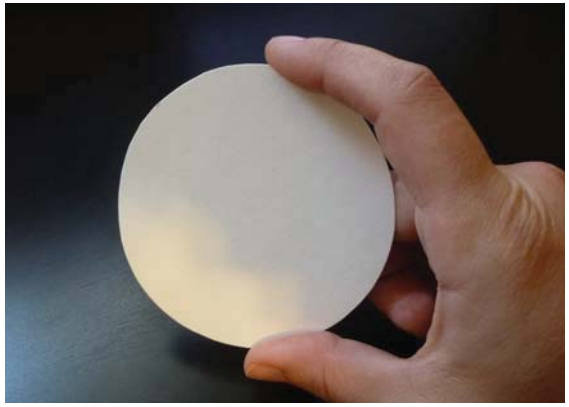
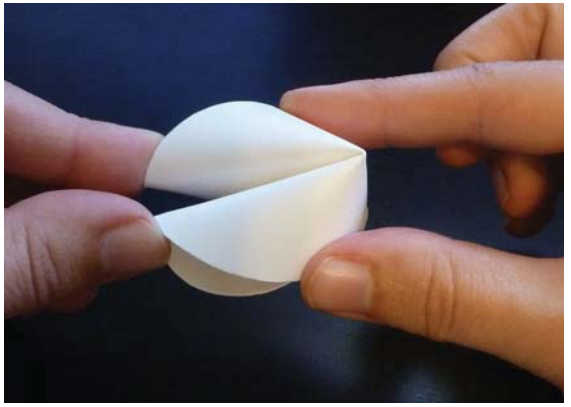
How to Assemble Your Chinese Takeout Box

1. Print desired template(s) on plain white card stock paper.
2. Using image, below, as a guide, cut on solid lines and fold on dotted lines.
3. Glue tab **A** inside side **B**.
4. Fold up tab **C**.
5. Fold up **D** tabs and tuck **d** tips inside tab **C**.
6. Fold up tab **E** and tuck inside tab **C**.

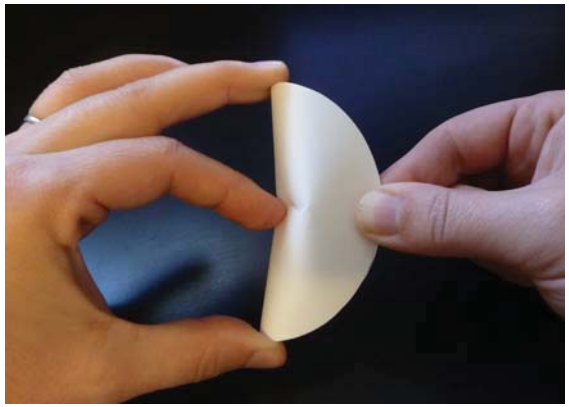


Making a Paper Fortune Cookie



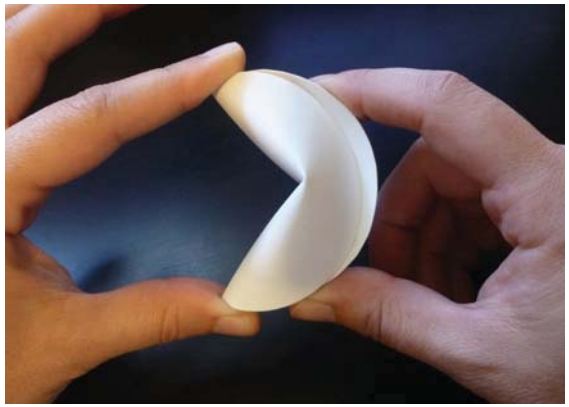


Bring sides together until they meet in the middle.

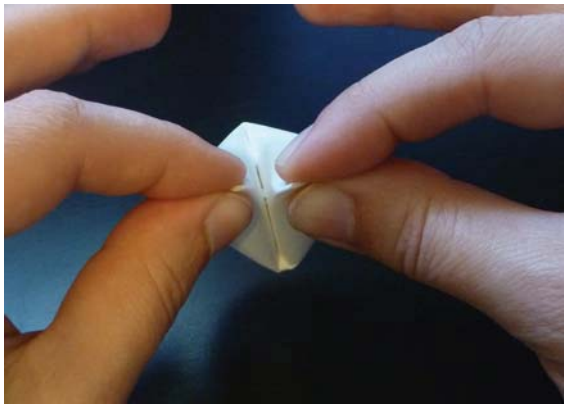


Pinch sides together to form a half circle with one hand; push in from middle with pointer finger of other hand.

Apply adhesive to the middle. If using card stock there will be a strong pull back, so a very stricky glue or two-sided tape is required.



Squeeze top and bottom of half circle together.



Hold the cookie closed until the adhesive is set.
